

Skills Practice*Multiplication and Division Relationships*

Write an equation that describes the pattern. Then use the equation to find the next two numbers.

1.

Rule: _____	
Input (f)	Output (g)
3	18
4	24
5	30
6	
7	

2.

Rule: _____	
Input (n)	Output (o)
27	3
36	4
45	5
54	
63	

3.

Rule: _____	
Input (h)	Output (i)
5	40
6	48
7	56
8	
9	

4.

Rule: _____	
Input (t)	Output (u)
7	1
14	2
21	3
28	
35	

5. My class has to form teams of five. Make a table to find how many teams we can make if there are 15, 20, 25, and 30 of us.

Rule: _____	
Input (k)	Output (t)
15	
20	
25	
30
