

## Website Permission Slip

Dear Parents,

Your child will be completing many projects this year which involve the use of computers and the Internet for research. My classroom website is extensive and is used for instruction. It contains many resources for you and your child.

You need to know that I am very conservative in using the Internet and student safety on the Internet is my first concern. That is why students will never "surf" the Internet for information. All projects students will work on in my classroom have web pages I have built and posted on our classroom website with specific sites I have selected for students to use.

Our website is also a place I post student work, projects, photos, and accomplishments. I will only do this with your permission. I will never post last names on the website and any photos of your child will never have his/her name next to the photo. If you choose not to give permission, your child's name will not be listed on our website. If you would like to call me and talk about this, feel free. Thanks for your support.

Mrs. Heather Renz
